Building a scalable business takes support from the ground up. Our Venture Best legal team helps companies lay a strong foundation for growth.

During the earliest stages of building your business, we advise on fundamental issues like entity structure, founder ownership issues, intellectual property, and tax planning.

When it's time to move from idea to reality, we'll guide you through the process of forming your company as painlessly as possible. Our services include assisting with:

- Formation documentation
- Founders agreements
- Capitalization tables
- Confidentiality and IP assignment agreements
- Initial IP strategies
