

Elizabeth Rogers, CIPP/US

Partner

Overview

Elizabeth is a business lawyer and technology-specific privacy counselor for a variety of start-ups and emerging companies in Austin's bustling entrepreneurial community. She serves as a sounding board for clients from early-stage conceptual development up through advising mature companies on solutions for compliance with requirements of the Federal Trade Commission along with evolving global, federal, and state privacy and cybersecurity laws. Elizabeth's clients are involved in a wide spectrum of industries including video gaming, fintech, real estate tech, medical devices, and deployment of facial recognition technology in the retail industry.

Education

- St. Mary's University School of Law, Juris Doctor (J.D.), 1998; Member, John Harlan Society
- The University of Texas at El Paso, Bachelor of Arts (B.A.), 1983; with highest honors
