Entrepreneurs' Conference

Wisconsin Technology Council

Michael Best proudly supports the two-day 17th annual Wisconsin Entrepreneurs' Conference is one of the Midwest's premiere "how-to," hands-on events for entrepreneurs of all ages and experience levels. Attendees range from 'treps who are still developing their ideas to emerging company leaders who have already attracted angel and/or venture funding. These businesses cover a broad span of categories, from information technology to cleantech, from advanced manufacturing to the life sciences, and from business services to consulting.

Attorney Dan Gawronski will participate on a panel in the "Launch" track and advise on company structure, intellectual property protection, and investment.
